What's inside our unique hot water storage tank?

Double Access Doors make it possible to clean the tank

Crystal Blue Glass Lining prevents any impurities from sticking to the tank

High-pressure High-density Cyclopentane foam is non-corrosive and environment friendly keeps water warm for longer

Metallic Outer Cover helps withstand all weather conditions

Capsule Dish-end-shaped Tank withstands greater pressure

3 T Gold Standard Tubes+ 10% greater Absorption Area give you maximum hot water

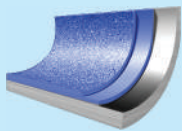

Special Profile Rolled Section Stand provides stability and strength to the system

What is Crystal Blue Glass Lining?

It is a non-stick coating created by melting special glass material in an automatic furnace at a very high temperature (around 850°C). 'Glass Lining' is an internationally renowned technology in solar water heating systems to help provide clean hot water.

Manufactured by German Technology

Crystal Blue Glass Lining™

Advantages of Crystal Blue Glass Lining Technology

- Keeps the water-tank completely rust free.
- Does not allow any chemicals, salts and impurities stick to the water tank.
- Makes the system suitable for all kinds of water.
- Promises continuous supply of pure, hot water.
- Increases the life of solar water heater.
